

BIOBASED IN LAOIS

SUSTAINABLE BUSINESSES

There are several companies in county Laois running their businesses sustainability and working to make the best use of waste.

Trifol processes landfill plastic into eco-friendly wax for use in a wide range of products. For example, wax for food preservation, and waxes for coating, and also for use in the health care industry!

Ballykilcavan Farm and Brewery Based in Stradbally, the water they use for brewing is sourced from their well, and 100% of organic byproducts they produce are recycled or upcycled.

ENVIRONMENTAL GROUPS

There are many environmental groups around, find one near you! The **Laois Environmental Action Forum (LEAF)** is one of them. There you can connect, learn and co-operate with others, to help Laois transition to sustainable practices.

ZERO WASTE SHOPPING

A great way to be environmentally friendly is to buy local.

And what better place to buy fresh, local and traceable food than the farmers market? Also a great way to avoid unnecessary plastic packaging. For that, zero waste stores are also great. You can find them at **Go Zero**, the zero waste directory.
