

BIOBASED IN LONGFORD

SUSTAINABLE BUSINESSES

Several businesses in Longford are committed to sustainability, providing more environmentally friendly solutions.

Green Qube Sustainable Living amongst others, produces cleaning product cubes. Their eco-qube film is 100% biodegradable and dissolves within minutes once mixed with water. Their formula is made from plant and fruit derived ingredients with a touch of soft chemicals.

Cirtext Ltd They manufacture an extensive range of technical non-woven wool, fibre and foam mix products for multiple applications by upcycling textiles, producing a wide range of valuable products including thermal and acoustic insulation for domestic and commercial use, floor underlay, arena fibre, and insulator pads for mattresses and furniture cushioning.

ENVIRONMENTAL GROUPS

There are many environmental groups around, find one near you! The **Longford Environmental Network** is one of them, and its aims are to create a space for people to connect and discuss environmental concerns, share knowledge and information, host and promote events and develop and provide support for projects. There are also the Tidy Town groups, which work to keep your town in good shape.

FARMERS MARKET

A great way to be environmentally friendly is to buy local. And what better place to buy fresh, local and traceable food than the farmers market? Also a great way to avoid unnecessary plastic packaging.
