

BIOBASED IN WATERFORD

COMPANIES GIVING WASTE A SECOND LIFE

There are several companies in county Waterford working to turn waste into energy or new products.

BioWave Technologies is a sustainable solution for converting waste streams to Vio available resources. They take difficult to treat organic waste and convert them to new resources for renewable energy or bio-based materials production.

Ormonde Organics Based in Portlaw, they take organic waste from companies within every industry and municipal authorities and use it to generate green energy and nutrient-rich soil amendment products!

SUSTAINABLE FOOD PRODUCTION

GYI (Grow It Yourself) is a model of a more sustainable food system, with headquarters in Waterford City, where they also have an award-winning café, urban farm and education centre. GYI creates and delivers national awareness and engagement campaigns and programmes that inspire citizens, children, chefs, companies and communities to grow food and make more sustainable food choices.

LOCAL AND MINIMAL WASTE SHOPPING

A great way to be environmentally friendly is to buy local. The farmers market is a great place for that, and so are shops that sell close-range products! You can find some around Waterford, as well as plastic-free and minimal waste businesses.
