

BIOBASED IN ROSCOMMON

COMPANIES GIVING WASTE A SECOND LIFE

There are companies in county Roscommon working to turn waste into energy or new products.

Biocore Environmental is a renewable energy company which has an anaerobic digestion plant that converts waste into electricity and carbon neutral natural gas, and produces nutrient rich sustainable fertilizer!

ENVIRONMENTAL GROUPS

There are many environmental groups around, find one near you! The **Roscommon Environmental Network** is one of them. There are also great environmental initiatives to make Roscommon county more sustainable! Check out the **Plastic Free Roscommon** initiative, a cause for local people who want to reduce single-use plastic consumption and minimise waste.

LOCAL AND MINIMAL WASTE SHOPPING

A great way to be environmentally friendly is to buy local. The farmers market is a great place for that, and so are shops that sell close-range products! You can find some around Roscommon, as well as plastic-free and minimal waste businesses.

The Courtyard Market
Based in Boyle, this market offers local artisan's products and organic food. There you can also find Trish's Re-fill Station!

A 'Zero Waste Refill Section' – the first of its kind in County Roscommon – has opened at **Benny's Deli** in Castlereagh.
